## Instruction Manual

Thank you for purchasing the ONKYO DVD Player.
Please read this manual thoroughly before making
connections and turning on the power.
Following the instructions in this manual will enable
you to obtain optimum performance and listening
enjoyment from your new DVD Player.
Please retain this manual for future reference.

# Contents

**Getting Started**

**Basic Playback**

**Advanced Playback**

**Function Setup**

**Others**

**WARNING:**
TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

**CAUTION:**
TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

| WARNING | AVIS |
|---|---|
| RISK OF ELECTRIC SHOCK DO NOT OPEN | RISQUE DE CHOC ELECTRIQUE NE PAS OUVRIR |

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

# Important Safeguards

1. **Read Instructions** – All the safety and operating instructions should be read before the appliance is operated.

2. **Retain Instructions** – The safety and operating instructions should be retained for future reference.

3. **Heed Warnings** – All warnings on the appliance and in the operating instructions should be adhered to.

4. **Follow Instructions** – All operating and use instructions should be followed.

5. **Cleaning** – Unplug the appliance from the wall outlet before cleaning. The appliance should be cleaned only as recommended by the manufacturer.

6. **Attachments** – Do not use attachments not recommended by the appliance manufacturer as they may cause hazards.

7. **Water and Moisture** – Do not use the appliance near water –for example, near a bath tub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.

8. **Accessories** – Do not place the appliance on an unstable cart, stand, tripod, bracket, or table. The appliance may fall, causing serious injury to a child or adult, and serious damage to the appliance. Use only with a cart, stand, tripod, bracket, or table recommended by the manufacturer, or sold with the appliance. Any mounting of the appliance should follow the manufacturer's instructions, and should use a mounting accessory recommended by the manufacturer.

PORTABLE CART WARNING

S3125A

9. An appliance and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the appliance and cart combination to overturn.

10. **Ventilation** – Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the appliance and to protect it from overheating, and these openings must not be blocked or covered. The openings should never be blocked by placing the appliance on a bed, sofa, rug, or other similar surface. The appliance should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided. There should be free space of at least 20 cm (8 in.) and an opening behind the appliance.

11. **Power Sources** – The appliance should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your appliance dealer or local power company.

12. **Grounding or Polarization** – The appliance may be equipped with a polarized alternating current line plug (a plug having one blade wider than the other). This plug will fit into the power outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the plug. If the plug should still fail to fit, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the polarized plug.

13. **Power-Cord Protection** – Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and the point where they exit from the appliance.

14. **Lightning** – For added protection for the appliance during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the appliance due to lightning and power-line surges.

15. **Overloading** – Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.

16. **Object and Liquid Entry** – Never push objects of any kind into the appliance through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the appliance.

17. **Servicing** – Do not attempt to service the appliance yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

18. **Damage Requiring Service** – Unplug the appliance form the wall outlet and refer servicing to qualified service personnel under the following conditions:

    A. When the power-supply cord or plug is damaged,

    B. If liquid has been spilled, or objects have fallen into the appliance,

    C. If the appliance has been exposed to rain or water,

    D. If the appliance does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the appliance to its normal operation,

    E. If the appliance has been dropped or damaged in any way, and

    F. When the appliance exhibits a distinct change in performance – this indicates a need for service.

19. **Replacement Parts** – When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.

20. **Safety Check** – Upon completion of any service or repairs to the appliance, ask the service technician to perform safety checks to determine that the appliance is in proper operation condition.

21. **Wall or Ceiling Mounting** – The appliance should be mounted to a wall or ceiling only as recommended by the manufacturer.

22. **Heat** – The appliance should be situated away from heat sources such as radiators, heat registers, stoves, or other appliances (including amplifiers) that produce heat.

2

# Precautions

This unit contains a semiconductor laser system and is classified as a "CLASS 1 LASER PRODUCT." So, to use this model properly, read this Instruction Manual carefully. In case of any trouble, please contact the store where you purchased the unit. To prevent being exposed to the laser beam, do not try to open the enclosure.

**CAUTION:**

VISIBLE LASER RADIATION WHEN OPEN AND INTERLOCK FAILED OR DEFEATED. DO NOT STARE INTO BEAM.

**CAUTION:**

THIS PRODUCT UTILIZES A LASER. USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.

The label on the right is applied on the rear panel except for USA and Canadian models.

**"CLASS 1 LASER PRODUCT"**

1. This unit is a CLASS 1 LASER PRODUCT and employs a laser inside the cabinet.

2. To prevent the laser from being exposed, do not remove the cover. Refer servicing to qualified personnel.

## For U.S. model

The laser is covered by a housing which prevents exposure during operation or maintenance. However, this product is classified as a Laser Product by CDRH (Center for Devices and Radiological Health) which is a department of the Food and Drug Administration. According to their regulations 21 CFR section 1002.30, all manufactures who sell Laser Products must maintain records of written communications between the manufacturer, dealers and customers concerning radiation safety. If you have any complaints about instructions or explanations affecting the use of this product, please feel free to write to the address on the back page of this manual. When you write us, please include the model number and serial number of your unit.

In compliance with Federal Regulations, the certification, identification and the period of manufacture are indicated on the rear panel.

### FCC INFORMATION FOR USER

**CAUTION:**

The user changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

## For Canadian model

This class B digital apparatus complies with Canadian ICES-003.

**For models having a power cord with a polarized plug:**

**CAUTION:** TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

**Modele pour les Canadien**

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

**Sur les modeles dont la fiche est polarisee:**

**ATTENTION:** POUR EVITER LES CHOCS ELECTRIQUES, INTRODUIRE LA LAME LA PLUS LARGE DE LA FICHE DANS LA BORNE CORRESPONDANTE DE LA PRISE ET POUSSER JUSQU'AU FOND.

# Precautions

1. **Regional Restriction Codes (Region Number)**

   Regional restriction codes are built into DVD players and DVD videos for each sales region. If the regional code of the DVD Player does not match one of the regional codes on the DVD video, playback is not possible.

   The regional number can be found on the rear panel of the DVD Player. (e.g. ⊕ for Region 1)

2. **About This Manual**

   This manual explains the basic procedures for operating the DVD Player. Some DVD videos do not support the full potential of the DVD technology. Your DVD Player may therefore not respond to all operating commands. Refer to instruction notes on discs.

   A " ⊘ " mark may appear on the TV screen during operation. It means that the operation is not permitted by the DVD player or the disc.

3. **Warranty Claim**

   You can find the serial number on the rear panel of the unit. In case of warranty claim, please report this number.

4. **Recording Copyright**

   Recording of copyrighted material for other than personal use is illegal without permission of the copyright holder.

5. **Power**

   **WARNING**

   BEFORE PLUGGING IN THE UNIT FOR THE FIRST TIME, READ THE FOLLOWING SECTION CAREFULLY.

   The voltage of the available power supply differs according to country or region. Be sure that the power supply voltage of the area where the unit will be used meets the required voltage (e.g., AC120V, 60Hz or AC100-240V, 50/60Hz) written on the rear panel.

6. **Do not touch the unit with wet hands**

   Do not handle the unit or power cord when your hands are wet or damp. If water or any other liquid enters the case, take the unit to an authorized service center for inspection.

7. **Location of the unit**

   - Place the unit in a well-ventilated location.
     Take special care to provide plenty of ventilation on all sides of the unit especially when it is placed in an audio rack. If ventilation is blocked, the unit may overheat and malfunction.
   - Do not expose the unit to direct sunlight or heating units as the unit's internal temperature may rise and shorten the life of the pickup.
   - Avoid damp and dusty places and places directly affected by vibrations from the speakers. In particular, avoid placing the unit on or above one of the speakers.
   - Be sure the unit is placed in a horizontal position. Never place it on its side or on a slanted surface as it may malfunction.
   - When you place the unit near a TV, radio, or VCR, the playback picture may become poor and the sound may be distorted. In this case, place the unit away from the TV, radio, or VCR.

8. **Care**

   From time to time you should wipe the front and rear panels and the cabinet with a soft cloth. For heavier dirt, dampen a soft cloth in a weak solution of mild detergent and water, wring it out dry, and wipe off the dirt. Following this, dry immediately with a clean cloth. Do not use rough material, thinners, alcohol or other chemical solvents or cloths since these could damage the finish or remove the panel lettering.

9. **Notes on Handling**

   - When shipping the unit, use the original shipping carton and packing materials. For maximum protection, repack the unit as it was originally packed at the factory.
   - Do not use volatile liquids, such as insect spray, near the unit. Do not leave rubber or plastic products in contact with the unit for a long time. They will leave marks on the finish.
   - The top and rear panels of the unit **may become warm after a long period of use. This is not a malfunction.**
   - When the unit is not in use, be sure to remove the disc and turn off the power.
   - If you do not use the unit for a long period, the unit may not function properly in the future. Turn on and use the unit occasionally.

10. **To Obtain a Clear Picture**

    The unit is a high technology, precision device. If the optical pick-up lens and disc drive parts are dirty or worn down, the picture quality becomes poor. To obtain a clear picture, we recommend regular inspection and maintenance (cleaning or parts replacement) every 1,000 hours of use depending on the operating environment. For details, contact your nearest dealer.

11. **Notes on Moisture Condensation**

    **Moisture condensation damages the unit.**
    **Please read the following carefully.**

    - **What is moisture condensation?**
      Moisture condensation occurs, for example, when you pour a cold drink into a glass on a warm day. Drops of water form on the outside of the glass. In the same way, moisture may condense on the optical pick-up lens inside the unit, one of the most crucial internal parts of the unit.

    - **Moisture condensation occurs in the following cases.**
      – When you bring the unit directly from a cold place to a warm place.
      – When you use the unit in a room where you just turned on the heater, or a place where the cold wind from the air conditioner directly hits the unit.
      – In summer, when you use the unit in a hot and humid place just after you move the unit from an air conditioned room.
      – When you use the unit in a humid place.

    - **Do not use the unit when moisture condensation may occur.**
      If you use the unit in such a situation, it may damage discs and internal parts. Remove the disc, connect the power cord of the unit to the wall outlet, turn on the unit, and leave it for two or three hours. After a few hours, the unit will have warmed up and evaporated any moisture. Keep the unit connected to the wall outlet and moisture condensation will seldom occur.

# Table of Contents

# Features/Supplied Accessories

## Features

- DTS*1/Dolby Digital*2/MPEG2/PCM Digital Audio Outputs
- Advanced 96-kHz/24-Bit D/A Converters
- Video CD Capability
- 27-MHz/10-bit Video D/A Conversion
- 3-Mode "Zoom-In" Function
- Audiophile-Grade Audio Performance
- RGB Video Output Scart Connector
- Composite Outputs
- High Resolution On-screen Display
- Full-Function Remote Control Supplied

*2 Manufactured under license from Dolby Laboratories.
"Dolby", "Pro Logic" and the double-D symbol ⧠⧠ are trademarks of Dolby Laboratories. Confidential Unpublished Works. ©1992-1997 Dolby Laboratories, Inc. All rights reserved.
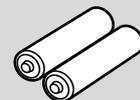

## Supplied Accessories

**Make sure your box contains everything listed below.**
**If any pieces are missing, contact your nearest ONKYO dealer.**
**The number of accessories is indicated in brackets.**
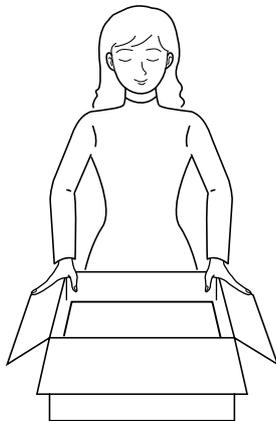

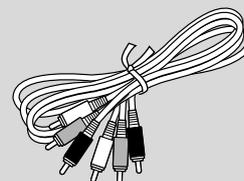

**Remote controller (RC-419DV) [1]**
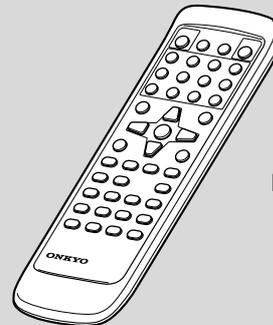

**Batteries (size AA/UM-3) [2]**

**SCART cable [1]**

**Audio/video connection cable [1]**

6

# Preparing the Remote Controller
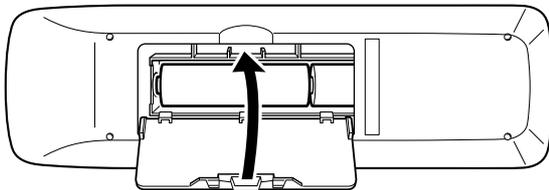

## Inserting the Batteries

❶ **Open the battery compartment cover.**

❷ **Insert the two R6 (size AA) batteries.**
Be sure to match the + and − ends of the batteries
with the diagram inside the battery compartment.

❸ **Close the battery compartment cover.**

**Notes**
• Do not mix new batteries with old batteries or different kinds of
  batteries.
• To avoid corrosion, remove the batteries if the remote controller is
  not to be used for a long time.
• Remove dead batteries immediately to avoid damage from
  corrosion. If the remote controller does not operate smoothly,
  replace both batteries at the same time.
• The life of the batteries supplied is about six months but this will
  vary depending on usage.

## Using the Remote Controller

Point the remote controller toward the remote control
sensor.

**STANDBY indicator
(as remote control reception indicator)**
The STANDBY indicator lights up each time the
DVD Player receives a signal from the remote
controller. For the other functions of this indicator,
see page 10.

STANDBY/ON

STANDBY

Remote control sensor

30° 30°

About 5 m
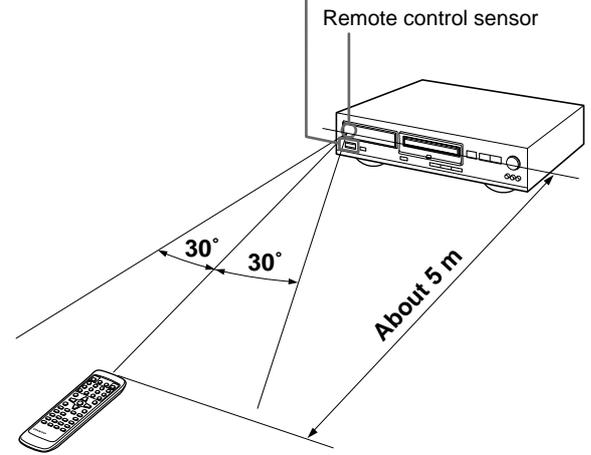

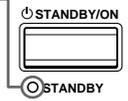

**Notes**
• Place the unit away from strong light such as direct sunlight or
  inverted fluorescent light which can prevent proper operation of the
  remote controller.
• Using another remote controller of the same type in the same room
  or using the unit near equipment which uses infrared rays may
  cause operational interference.
• Do not put any object such as a book on the remote controller. The
  buttons of the remote controller may be pressed by mistake and
  drain the batteries.
• Make sure the audio rack doors do not have colored glass. Placing
  the unit behind such doors may prevent proper remote controller
  operation.
• If there is any obstacle between the remote controller and the
  remote control sensor, the remote controller will not operate.

# Connecting to a TV

**Before connecting**
- Refer also to the instruction manual of the TV.
- When you connect the DVD Player to the TV, be sure to turn off the power and unplug both units from the wall outlet before making any connections.
- Connect the DVD Player to the TV directly. If you connect the DVD Player to a VCR, TV/VCR combination, or video selector, the playback picture may be distorted as DVD videos are copy protected.

- Note that one audio/video connection cable and one S video connection cable are supplied. To use the audio/video cable for only the audio connection, leave the yellow plug disconnected.
- Connect the plugs securely.
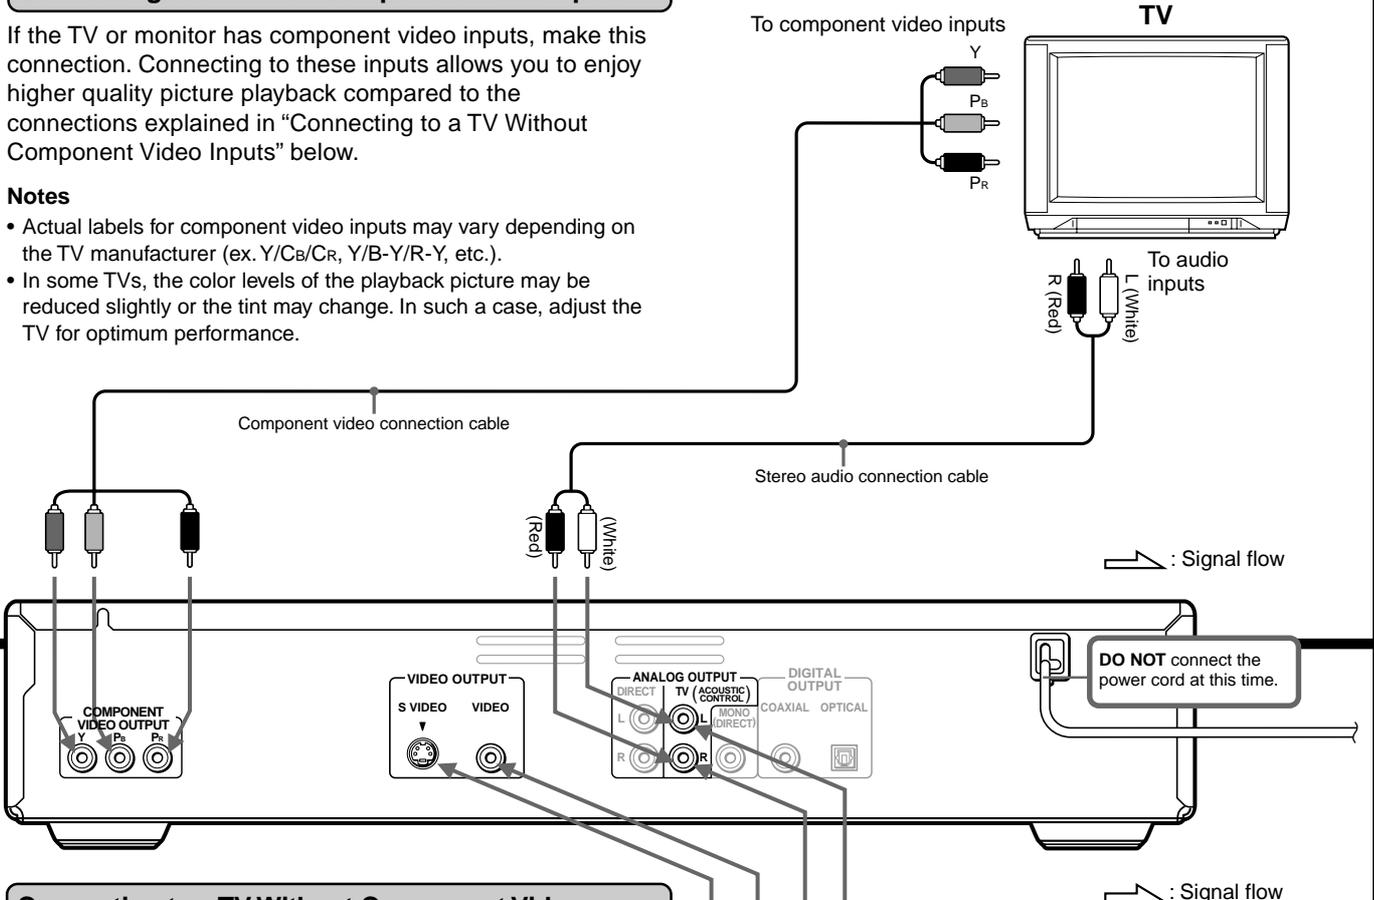

Incomplete

Insert completely
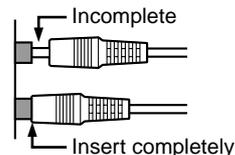

## Connecting to a TV With Component Video Inputs

If the TV or monitor has component video inputs, make this connection. Connecting to these inputs allows you to enjoy higher quality picture playback compared to the connections explained in "Connecting to a TV Without Component Video Inputs" below.
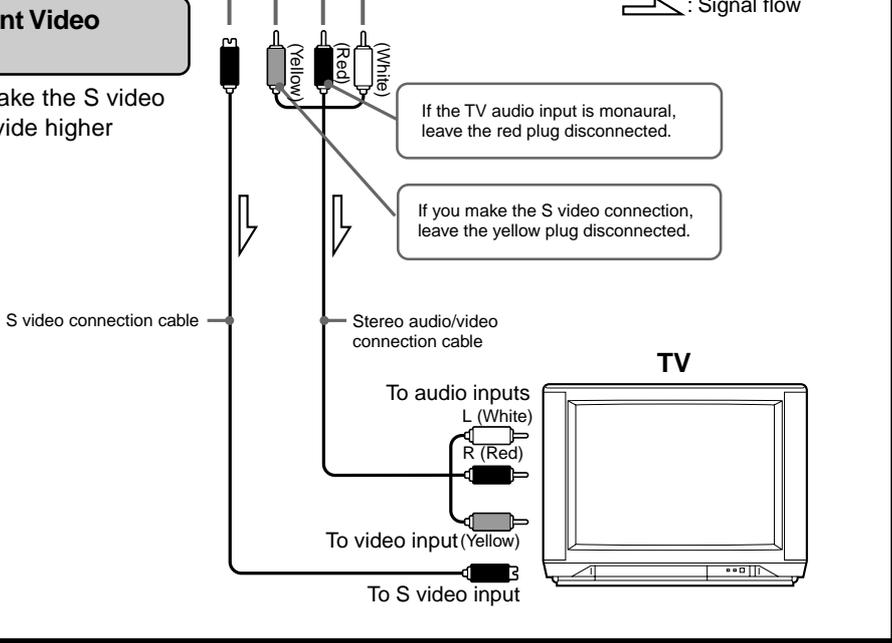

**Notes**
- Actual labels for component video inputs may vary depending on the TV manufacturer (ex. Y/C$_B$/C$_R$, Y/B-Y/R-Y, etc.).
- In some TVs, the color levels of the playback picture may be reduced slightly or the tint may change. In such a case, adjust the TV for optimum performance.

# Connecting to an Amplifier (To Enjoy the Sound Advantage of the DVD Player)

Although you can reproduce the DVD Player's sound from the TV speakers with the connections on the opposite page, connecting with an amplifier and subwoofer provide you high quality dynamic sounds.
To reproduce Dolby Digital surround, MPEG1 audio, MPEG2 audio*, and DTS surround sound, you need to connect to an amplifier with a Dolby Digital, MPEG1 audio, MPEG2 audio*, and DTS decoder respectively.

**Before connecting**
- Refer to the instruction manual of the amplifier.
- When you connect the DVD Player to the amplifier, be sure to turn off the power and unplug both units from the wall outlet before making any connections. Otherwise, the speakers may be damaged.
- Note that one audio/video connection cable is supplied. To use this cable for the analog connection, leave the yellow plug disconnected.

- Connect the plugs securely.

Insert completely

---
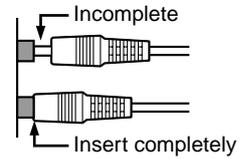

### Making a digital connection with the amplifier

#### ■ If the amplifier has a Dolby Digital/DTS/ MPEG1/MPEG2*/Dolby Pro Logic decoder

After completing the steps on page 10, set "**Audio Out Select**" to "**Bitstream**" using the menu explained in "Customizing the Function Settings" starting from page 28. See page 32 for direct information.

**Warning**

**DO NOT** set "Audio Out Select" to "Bitstream" if the amplifier does not have any of the decoders described above. If you do so, high volume sound may be output and damage your hearing as well as the speakers.

#### ■ If the amplifier doesn't have any of the above decoders (2 channel digital stereo type amplifier)

After completing the steps on page 10, set "**Audio Out Select**" to "**PCM**" using the menu explained in "Customizing the Function Settings" starting from page 28 . See page 32 for direct information.

**Note**
- **DO NOT** set "Audio Out Select" to "Bitstream." See "Warning" above.
- If "Audio Out Select" is set to "Analog 2ch," PCM sounds may not be reproduced depending on the sound format.

### An amplifier with a Dolby Digital/DTS/MPEG1/ MPEG2* decoder or 2 channel digital stereo
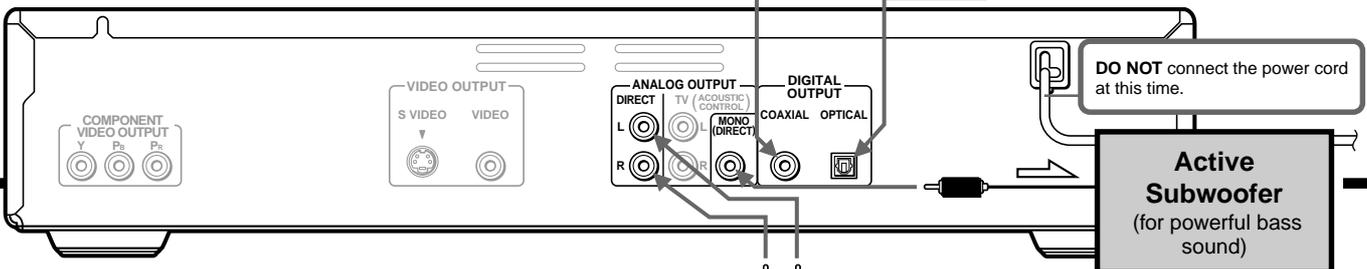

To digital coaxial input

To digital optical input

Coaxial connection cable (not supplied)

**DO NOT** connect to the AC-3 RF input (e.g. of a Dolby Digital receiver) which is reserved only for video disc players.

Make either connection depending on the amplifier's input type.

### Making the analog connection with the amplifier

If your amplifier has no digital audio input, you can make the analog connection. If the amplifier has a Dolby Pro Logic decoder, you can reproduce the Dolby Pro Logic surround sound.

**Note**

Make sure that "**Audio Out Select**" is set to "**Analog 2ch**" (**the factory setting**) to reproduce the Dolby Pro Logic surround sounds with the analog connection. For details on the "Audio Out Select" setting, see page 32.

# Connecting the Power/ Turning on the DVD Player

**Before connecting**

- Make sure that all the connections on pages 8 and 9 are complete (the connection to a TV is required).
- Turning on the DVD Player may cause a momentary power surge, which might interfere with other electrical equipment such as computers. To prevent the interference, use a wall outlet on a different circuit.

**1** **Connect the power cord to a wall outlet.**

**2** **Press the POWER switch to switch on the main power.**

The DVD Player enters standby mode.
The STANDBY indicator lights up.

**Notes**
- The buttons on the remote controller don't operate if the POWER switch is set to OFF.
- To switch off the main power, press the POWER switch again.

**3** **Press STANDBY/ON on the DVD Player or POWER on the remote controller.**

The DVD Player turns on. The STANDBY indicator goes off.

**The first time you turn on the DVD Player, the First Setup screen appears.**
With the First Setup screen, select the On-Screen Language and TV Shape according to the aspect ratio of the TV screen (see pages 30 and 31) following the steps below.

1  Press ▲/▼ to select "On-Screen Language," then press ENTER (the center of the cursor).
2  Select a language with ▲/▼, then press ENTER.
3  Press ▼ to select "TV Shape," then press ENTER.
4  Press ▲/▼ to select the aspect ratio of the TV screen, then press ENTER.
5  Finally press SETUP.
   All your selections are set and the First Setup screen disappears.

**Notes**
- To turn off the DVD Player, press STANDBY/ON on the DVD Player, or POWER on the remote controller. The DVD Player enters standby mode. Be sure to set the volume to minimum before turning off the DVD Player for the next use to avoid sudden loud sound reproduction.
- You can change the above settings later with "Customizing the Function Settings" on page 28.

# Notes on Discs

**This section shows you how to handle, clean, and store discs.**

## Playable Discs

This DVD Player can playback the following discs.

| | Disc mark | Contents | Disc size | Maximum playback time |
|---|---|---|---|---|
| **DVD videos** | **DVD** VIDEO | Audio + Video (moving pictures) | 12 cm | Approx. 4 hours (single sided disc) |
| | | | | Approx. 8 hours (double sided disc) |
| | | | 8 cm | Approx. 80 minutes (single sided disc) |
| | | | | Approx. 160 minutes (double sided disc) |
| **VIDEO CDs** | COMPACT disc DIGITAL VIDEO | Audio + Video (moving pictures) | 12 cm | Approx. 74 minutes |
| | | | 8 cm | Approx. 20 minutes |
| **Audio CDs** | COMPACT disc DIGITAL AUDIO | Audio | 12 cm | Approx. 74 minutes |
| | | | 8 cm (CD single) | Approx. 20 minutes |

- You cannot playback discs other than those listed above.
- You cannot play discs such as CD-R, CD-RW, CD-ROM, DVD-RAM, DVD-RW, etc., even if the marks in the above table are labeled on those discs.
- This DVD Player uses the PAL*/NTSC color system, and cannot playback DVD videos recorded in any other color system (SECAM, etc.).
- Avoid using heart-shaped or octagonal discs. Playing irregularly shaped discs may damage the internal mechanism of the DVD Player.

- Do not use discs that have residue from adhesive tape, rental discs that have peeling labels, or discs that have custom labels or stickers. Otherwise, you may not be able to eject the discs or the DVD Player may become inoperative.

*Not applicable for USA and Canadian models*

## Handling Discs

- Do not touch the playback side of the disc.
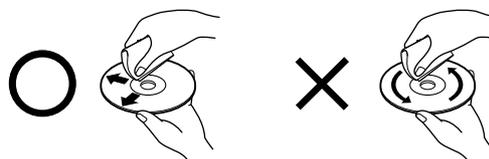

Playback side
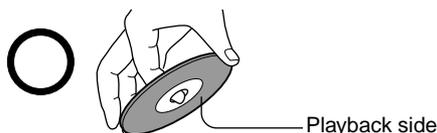

- Do not attach paper or tape to discs.

## Cleaning Discs

- Fingerprints and dust on the disc cause picture and sound deterioration. Wipe the disc from the center outwards with a soft cloth. Always keep the disc clean.

- If you cannot wipe off the dust with a soft cloth, wipe the disc lightly with a slightly moistened soft cloth and finish with a dry cloth.
- Do not use any type of solvent such as thinner, benzine, commercially available cleaners or antistatic spray for vinyl LPs. It may damage the disc.

## Storing Discs

- Do not store discs in a place subject to direct sunlight or near heat sources.
- Do not store discs in places subject to moisture and dust such as a bathroom or near a humidifier.
- Store discs vertically in a case. Stacking or placing objects on discs outside of their case may cause warping.

## About VIDEO CDs

This DVD Player supports VIDEO CDs equipped with the PBC (Version 2.0) function. (PBC is the abbreviation of Playback Control.) You can enjoy two playback variations depending on the type of disc.

- **VIDEO CD not equipped with PBC function  (Version 1.1)**
  Sound and movies can be played on this DVD Player in the same way as an audio CD.
- **VIDEO CD equipped with PBC function  (Version 2.0)**
  In addition to operation of the VIDEO CD not equipped with the PBC function, you can enjoy playback with interactive software and search function using the menu displayed on the TV screen (Menu Playback). Some of the functions described in this Instruction Manual may not work with some discs.

## Notes on Copyright

It is forbidden by law to copy, broadcast, show, broadcast on cable, play in public, and rent copyrighted material without permission.
DVD videos are copy protected, and any recordings made from these discs will be distorted.
This product incorporates copyright protection technology that is protected by method claims of certain U.S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

# Playing DVD Videos / VIDEO CDs / Audio CDs

**Before playing**
- DVD Videos, VIDEO CDs, and audio CDs can be played with the DVD Player (see "Playable Discs" on page 11). Do not play anything else.
- When playing DVD videos or VIDEO CDs, turn on the TV and set the TV to the DVD Player's input.
- If the audio system is connected to the DVD Player, turn on the audio system and set it to the DVD Player's input.

**About the** $\underset{\sim}{DVD}$ **,** $\underset{\sim}{VCD}$ **, and** $\underset{\sim}{CD}$ **marks in the pages related to disc operation**

$\underset{\sim}{DVD}$ means "The function or title is related to DVD operation."

$\underset{\sim}{VCD}$ means "The function or title is related to VIDEO CD operation."

$\underset{\sim}{CD}$ means "The function or title is related to audio CD operation."

---

**Warning**
If the DVD Player is connected to the TV or amplifier through the analog audio jacks, do not play DTS-encoded discs. Excessive noise may be output from the analog stereo jacks, which may damage the connected equipment.

To reproduce DTS surround sounds, digital connection to an amplifier with a DTS decoder is needed.

---

$\underset{\sim}{DVD}$ $\underset{\sim}{VCD}$ $\underset{\sim}{CD}$

## Basic Playback

**1 Press ⏏.**
The disc tray opens.

**If the DVD Player is in standby mode when the button is pressed**
The DVD Player turns on and the disc tray opens. In this case, it takes several seconds until the disc tray opens.

**2 Place the disc on the disc tray.**

Put the disc in the tray with the label side facing up.

There are two different disc sizes. Place the disc in the correct guide on the disc tray.
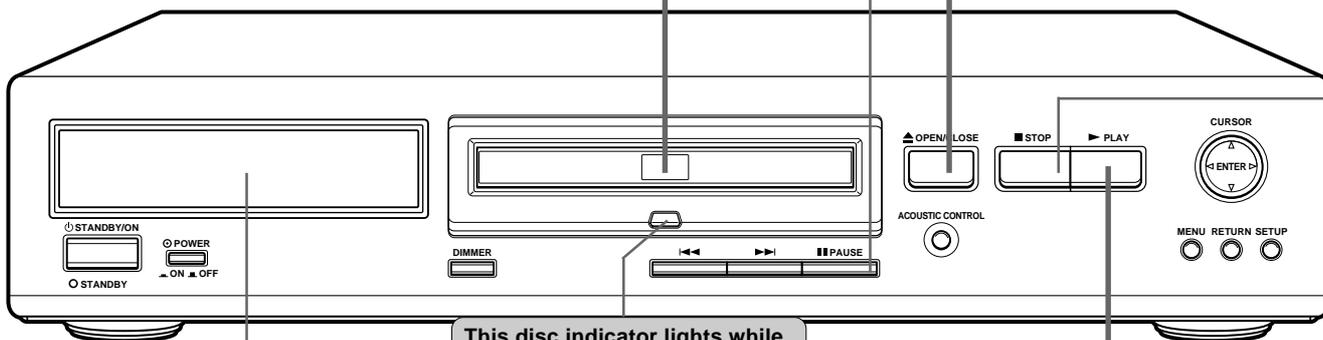

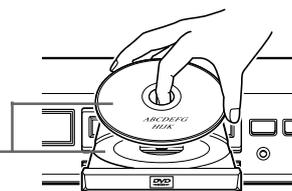

**This disc indicator lights while the disc is in the DVD Player.**

**3 Press ►.**
The disc tray closes and playback starts.
If you press ⏏ to close the tray after step **2**, playback may automatically start depending on the disc.

The type of the inserted disc lights.
For the other information that appears in the display, see pages 26 and 27.

$\underset{\sim}{DVD}$ **If any menu appears on the TV screen**
$\underset{\sim}{VCD}$ See "Operating the menu appearing on the TV screen" on page 15.

$\underset{\sim}{DVD}$ **If the sound is not reproduced**
$\underset{\sim}{VCD}$ • See "Warning" above.
$\underset{\sim}{CD}$ • Recheck the connections and settings on pages 8 and 9.
• See "Tips to select the most suitable audio format" on page 15.

**CAUTION**
Keep your fingers well clear of the disc tray as it is closing. Neglecting to do so may cause serious personal injury.

■ **To remove the disc**    DVD VCD CD

**Press ⏏ to open the disc tray.**
Remove the disc after the disc tray opens completely.
After removing the disc, be sure to press the button again to close the tray.

■ **To pause playback (still mode)**    DVD VCD CD

**Press ❙❙ during playback.**
To start playback, press ►.

**DVD** **To play frame by frame**
**VCD** Press the button repeatedly during pause. Each time you press the button the picture advances one frame.
To resume normal playback, press ►.

**Note**
The sound is muted during still mode and frame by frame playback.

■ **To stop playback**    DVD VCD CD

**Press ■.**
When you press ► to restart playback, playback starts from the location where you stopped playback because the location index is stored in memory.

**Note**
The location where playback resumes may vary depending on the disc or the scene where you stopped.

**Resuming playback from the beginning**
Press ■ again after stopping playback to clear the location index memory, then press ► to start playback.

**DVD** Playback starts from the beginning of the current title.
To start playback from the beginning of the DVD video, open and close the disc tray (press ⏏ twice) then press ► to start playback.
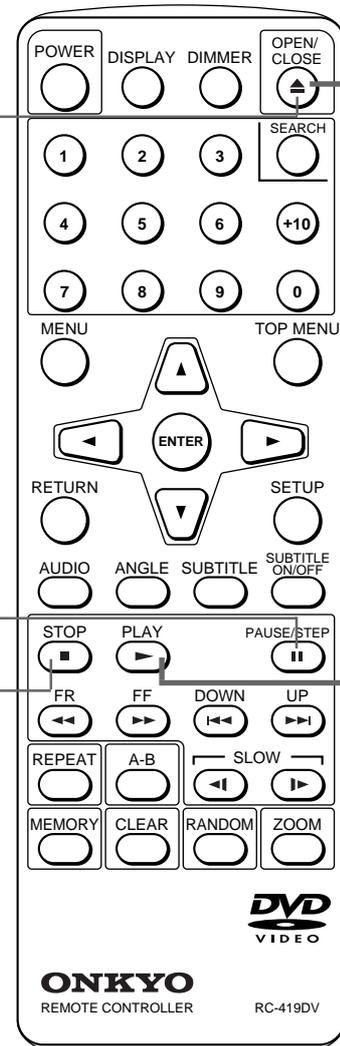

**VCD** Playback starts from the beginning of the disc.
**CD**

**Note**
The location index memory will also be cleared when:
• The power cord is unplugged,
• The DVD Player has entered standby mode,
• The disc tray is opened, and
• The parental lock setting is changed (see page 34) or a disc menu language is selected (see page 30).

**Notes**
• Do not move the DVD Player during playback. Doing so may damage the disc.
• Use the ⏏ button on the remote controller or DVD Player to open and close the disc tray. Do not touch the disc tray while it is moving. Doing so may cause the DVD Player to malfunction.
• Do not press down on the disc tray or put any objects other than playable discs on the disc tray. Doing so may cause the DVD Player to malfunction.
• In many instances, a menu screen appears when playback of a movie is complete. Prolonged display of an on-screen menu may damage your television set, permanently etching that image onto its screen. To avoid this, be sure to press ■ once the movie is complete.
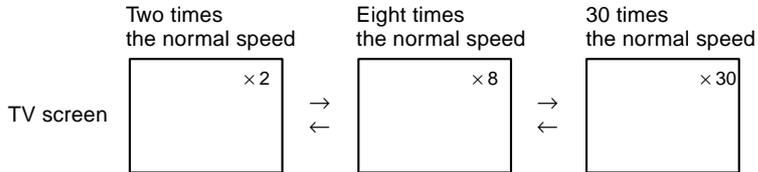

# Playing DVD Videos / VIDEO CDs / Audio CDs

## ■ To play in fast reverse or fast forward   *DVD*  *VCD*  *CD*

**Press ◄◄ (Fast Reverse) or ►► (Fast Forward) during playback.**

*DVD*   The playback speed becomes two times the normal speed.
Each press of the same button changes the playback speed as follows:

| Two times the normal speed | Eight times the normal speed | 30 times the normal speed |
|---|---|---|
| ×2 | ×8 | ×30 |

TV screen        →  ←          →  ←

**Notes**
- No sound is reproduced and no subtitles appear during fast forward or reverse playback.
- The ×2, ×8, and ×30 speeds are only approximate speeds. These speeds may vary slightly from disc to disc.

*VCD*  *CD*   Each time you press the same button, the playback speed alternates with the other as follows:

To check the marks on the right while playing a CD, turn on the TV and set the TV to the DVD Player's input.

**Note**
No sound is reproduced and no subtitles appear while playing back a VIDEO CD, whereas the sound is reproduced while playing back an audio CD.

TV screen

When ◄◄ is pressed       FR1  →  ←  FR2

When ►► is pressed       FF1  →  ←  FF2
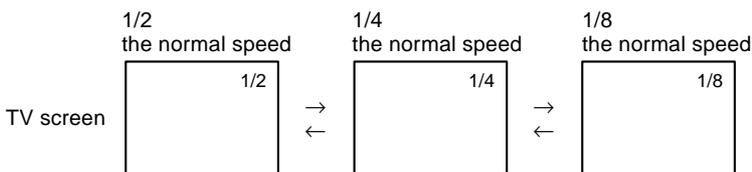

To resume normal playback, press ►.
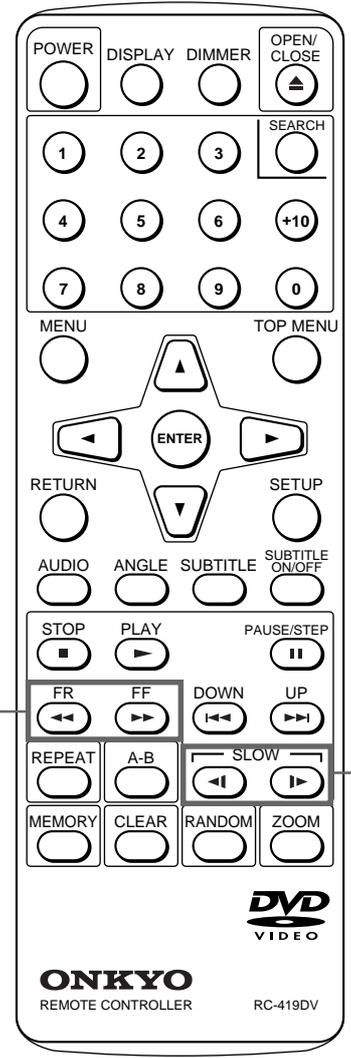

## ■ To play in slow-motion   *DVD*  *VCD*

**Press ◄I (reverse slow-motion)\* or I► (forward slow-motion) during playback.**
Each press of the same button changes the slow-motion speed as follows:

| 1/2 the normal speed | 1/4 the normal speed | 1/8 the normal speed |
|---|---|---|
| 1/2 | 1/4 | 1/8 |

TV screen        →  ←          →  ←

**Note**
The sound is muted during slow-motion playback.

\* This button operates only for DVD discs.

To resume normal playback, press ►.

Bass Cut (Lit in green) → Bass Boost (Lit in orange)
↖                    ↙
Off (Not lit)
## ■ When using the TV speakers

The audio connection on page 8 is required.
To boost bass sound, select the Bass Boost mode as shown on the left.

## ■ When using an active subwoofer

Connecting an active subwoofer as shown on page 9 provides better bass sound than boosting bass sound from the TV speakers. When reproducing the sound from the subwoofer, select the Bass Cut mode as shown on the left.

DVD VCD

## Operating the menu appearing on the TV screen

**About disc menu** DVD

A DVD video may include more than one language and more than one sound system. In many instances, such DVD videos let you choose the language (e.g. disc menu language/audio language/subtitle language), sound system, and so on using the menu.

Depending on the disc, the name of the disc menu varies and the disc menu may be included in the main menu.

**About title menu** DVD VCD

A DVD video or VIDEO CD with the PBC (Playback Control) function (see "About VIDEO CDs" on page 11) may let you locate a title/chapter (see page 16) using the menu.

Depending on the disc, the name of the title menu varies and the title menu may be included in the main menu.

**If any menu appears on the TV screen, press ▲/▼/◄/► to select the item or setting, then press ENTER to confirm.**

The operation varies depending on the disc. Follow the disc instructions.
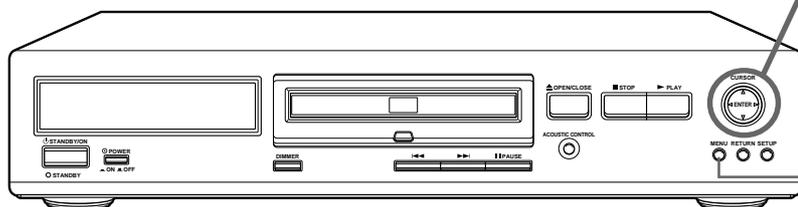

**▲/▼/◄/►/ENTER**

**Remote controller operation**
Press the appropriate button.

**DVD Player operation**
Press the appropriate mark on CURSOR.
To confirm, press the center of CURSOR (ENTER).
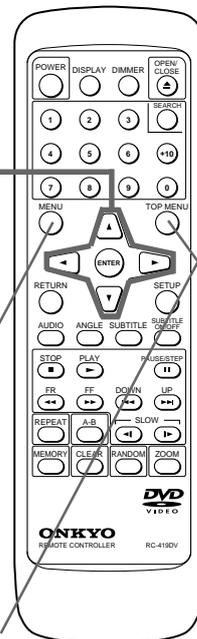

**To display the disc menu again**
Press MENU.

**To display the title menu again**
Press TOP MENU.

**If the button doesn't work**
Try the other one. Some discs do not include a menu.

DVD

## Tips to select the most suitable audio format

If a DVD video includes more than one sound system, you may need to select the sound system with the above explained disc menu.

The following are tips on how to select the most suitable sound system. See also pages 8 and 9 and the amplifier's manual.

### When you make the <u>digital</u> connection to the amplifier

☐ Does the amplifier have a DTS decoder?
→ Select "DTS" or " [DTS] ."

☐ Does the amplifier have a Dolby Digital decoder?
→ Select "Dolby Digital," " ⃞⃞ 6CH," " ⃞⃞ 5.1CH," or
" [DOLBY DIGITAL] ."

☐ Does the amplifier have an MPEG2 decoder?*
→ Select "MPEG2" or " MPEG )( Multichannel."

☐ Is the DVD Player connected to an amplifier with a Dolby Pro Logic Surround decoder?
→ Select "Dolby Pro Logic surround" or
" [DOLBY SURROUND] ."

☐ Is the amplifier a 2 channel stereo type?
→ Select "Stereo."

### When you make the <u>analog</u> connection to the amplifier/ When you reproduce the sound from the TV speakers

☐ Is the DVD Player connected to an amplifier with a Dolby Pro Logic Surround decoder?
→ Select "Dolby Pro Logic surround" or
" [DOLBY SURROUND] ."
☐ Is the amplifier a 2 channel stereo type?
→ Select "Stereo."

☐ Do you reproduce the sound only from the TV speakers?
→ Select "Stereo."

**Notes**
• Dolby Digital, PCM, MPEG2* sounds are converted to analog and can be reproduced as stereo sounds.
• DTS sounds are not reproduced with the analog connection.

### Various sound formats and sound effects

**Minimum speaker configuration for DTS/Dolby Digital/MPEG2\* surround sounds**

Center Speaker

Left front speaker    Right front speaker

Left surround speaker    Right surround speaker

The 5.1-channel digital surround format of DOLBY DIGITAL/DTS/ MPEG2* enables you to individually play five full-range (20Hz-20kHz) channels (left and right front, center, two surround channels) plus an LFE (Low Frequency Effect) channel for the low-range effect sound. It will create a realistic sound as heard in theaters and concert halls.

**DOLBY DIGITAL Surround**

DVD videos that have the [DOLBY DIGITAL] mark are recorded using this system.

**DTS Surround**

DVD videos and audio CDs that have the [DTS] mark are recorded using this system.

**MPEG2\***

DVD videos that have the MPEG )( Multichannel mark are recorded using this system. MPEG2 may have 8 channels. In this case, left and right center speakers in addition to the above speaker configuration are used.

**DOLBY PRO LOGIC Surround**

This surround format consists of 4 channels (left and right front, center, and monaural surround channel) and emphasizes the center channel. This format is very effective for panning music, conversation, and three-dimensional sound movement output from three front channels. It also simulates the atmosphere and surround effects of the sound reflected from the side and rear walls of the theater.

DVD videos that have the [DOLBY SURROUND] mark are recorded using this system.
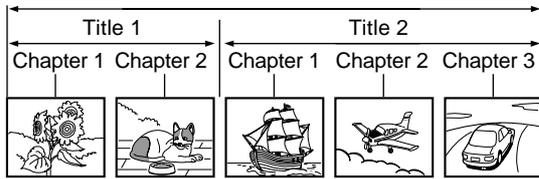

\* Not applicable for USA and Canadian models

15

# Locating a Specific Title / Chapter / Track / Location
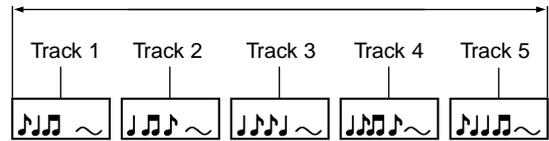

## The structure of the disc content

### DVD video
Normally, DVD videos are divided into titles, and the titles are subdivided into chapters.

| Title 1 | | Title 2 | | |
|---|---|---|---|---|
| Chapter 1 | Chapter 2 | Chapter 1 | Chapter 2 | Chapter 3 |

### VIDEO CD/Audio CD
VIDEO CDs and Audio CDs are divided into tracks.

Track 1   Track 2   Track 3   Track 4   Track 5

---

**DVD**

## Locating a title using the title menu

If a DVD video contains a title menu, you can locate a specific title using the title menu function.

**1** TOP MENU

**Press TOP MENU. (Depending on the DVD video, press MENU.)**

The title menu appears on the TV screen.

Example of a title menu.

TITLE 1   TITLE 2
TITLE 3   TITLE 4

**2**
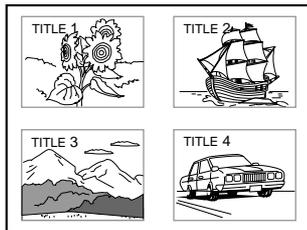

**Press ▲/▼/◀/▶ to select the title you want.**

If the titles in the title menu are assigned a number, you can also directly locate a specific title using the number buttons.
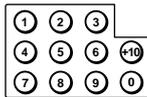

**3** ENTER

**Press ENTER.**

The DVD Player starts playback from chapter 1 of the selected title.

### Notes
- The instructions above describe basic procedures which may vary depending on the contents of the DVD video. If different instructions appear on the TV screen, follow those instructions.
- If you display the title menu during playback and press TOP MENU again without selecting any title, the DVD Player usually resumes playback from the point where you first pressed TOP MENU. (There may be exceptional cases depending on the disc.)
- This method of locating a title is available only on a disc that contains a title menu.
- The name of the button in the instruction notes of discs varies depending on the disc.

---

**DVD**

## Locating a specific title and chapter by entering the numbers

If a DVD video contains the numbers corresponding to the titles and chapters, you can locate a specific chapter in a specific title directly by entering the numbers.
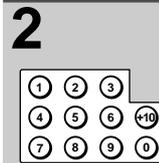

**1** SEARCH

**Press SEARCH.**

Make sure that the number next to "Title:" is highlighted. (You can shift the highlight using ▲/▼.)

e.g.

Title:    1
Chapter:    1

**2**

**Press the number button(s) to enter the title number for the desired title.**

e.g. To select title 2

② 
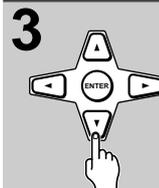

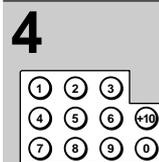

Title:    2
Chapter:    1

To select title 12

① → ②

Title:    12
Chapter:    1

If you do not need to change the chapter number appearing below the title number, skip steps **3** and **4**, and go to step **5**.

**3**

**Press ▼ to highlight the number next to "Chapter:."**
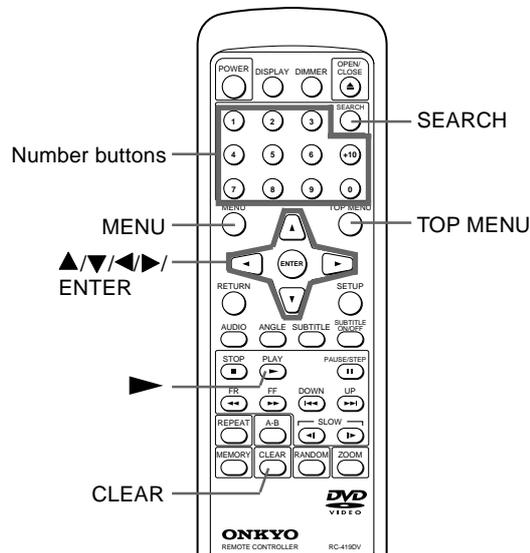

Title:    2
Chapter:    1

**4**

**Press the number button(s) to enter the chapter number for the desired chapter.**

e.g. To select chapter 25
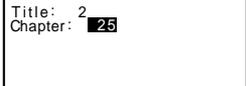

② → ⑤

Title:    2
Chapter:    25

Number buttons / SEARCH / MENU / TOP MENU / ▲/▼/◀/▶/ENTER / ▶ / CLEAR

| | |
|---|---|
| **5** PLAY ▷ | **Press ▶.** The DVD Player starts playback from the selected chapter in the selected title. |

**Notes**
• To enter a number between 10 and 99, you can also use (+10) (plus ten button) as follows:

(+10) → (+10) → (5)

Title: 2
Chapter: 25

• This location method is available only on a disc that contains the numbers corresponding to the titles and chapters.
• To cancel the entered title and chapter numbers, press CLEAR before pressing ▶. The title and chapter numbers in step **1** will be displayed.
• To close the Title/Chapter display, press SEARCH several times (the number of times you press SEARCH varies depending on the disc).

VCD CD

## Locating a specific track directly

You can locate the desired track by entering the number.

| | |
|---|---|
| **1** ① ② ③ ④ ⑤ ⑥ +10 ⑦ ⑧ ⑨ ⓪ | **Press the number button(s) to enter the track number for the desired track.** e.g. To select track 25 (2) → (5) Track : 25 |
| **2** PLAY ▷ | **Press ▶.** The DVD Player starts playback from the selected track. |

**Notes**
• To enter a number between 10 and 99, you can also use (+10) (plus ten button) as follows:

(+10) → (+10) → (5)

Track : 25

• To cancel the entered track number, press CLEAR before pressing ▶. The current track number will be displayed.

# Locating a Specific Title / Chapter / Track / Location

Number buttons ——— SEARCH

## DVD  VCD  CD

### Locating a specific chapter or track consecutively

You can locate consecutive chapters or tracks.

| Remote controller | **Press |◄◄ or ►►| (repeatedly) to select the chapter or track you wish to start playing** |
|---|---|
| DOWN | Press |◄◄ once to start playback from the beginning of the current chapter or track. |
| UP | Press |◄◄ repeatedly to select the former chapters or tracks in reverse order. |
| | Press ►►| repeatedly to select the next chapter or track in order. |
| DVD Player |◄◄ | |
| ►►| | |

**Notes**
- Some titles may not display chapter numbers.
- When you set "Title Stop" to "Off" (see page 35), you can locate consecutive chapters in another title. If you go back to the preceding title by pressing |◄◄, the DVD Player locates the first chapter of the title. When "Title Stop" is set to "On," you can locate consecutive chapters only within the current title.
- If you select the chapter or track during pause (while in still mode), you need to press ► to start playback.
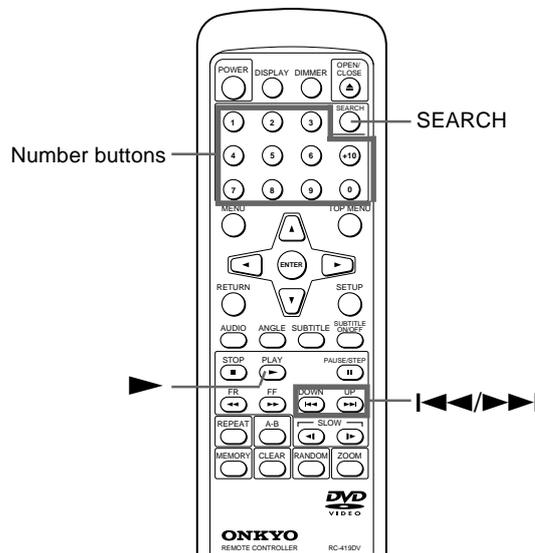

## DVD  VCD  CD

### Locating a specific location by entering the time

You can locate a specific location by entering its corresponding time (hours, minutes, and seconds).

**1** SEARCH — **Press SEARCH twice.**

You may need to press the button more than twice (depending on the disc) until the following display appears.

Time -:--:--

**2** — **Press the number buttons to enter the location's time.**

e.g. ① → ② → ⑤ → ③ → ⓪

Hours    Minutes    Seconds

Time 1:25:30

**3** PLAY — **Press ►.**

The DVD Player starts playback from the entered location.

**Notes**
- You can also use +10 (plus ten button) to add ten to the hours, minutes, or seconds.
- Some discs may not respond to this procedure.
- Some scenes may not be located precisely.
- This method for accessing specific locations is available only within the current title of the DVD video or within the current track of the VIDEO CD/audio CD.

18

# Playing Repeatedly
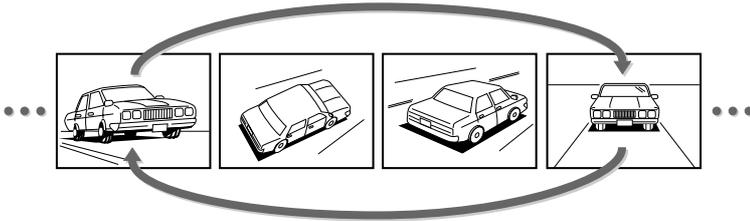

**You can play a specific title, chapter, track, or segment repeatedly (Title repeat, chapter/track repeat, A-B repeat).**
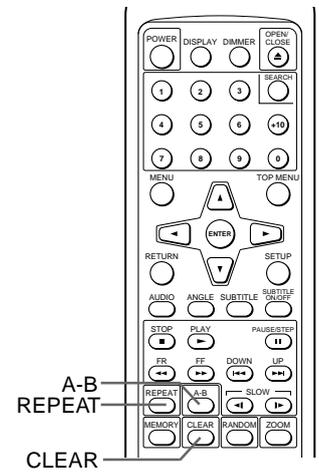

DVD  VCD  CD

## Repeating a Title, Chapter, or Track

You can play the same title, chapter, or track repeatedly (Title, chapter/track repeat).

| **1** | | **Select the title, chapter, or track you want to repeat. (See pages 16 to 18.)** |
|---|---|---|
| **2** | REPEAT | **Press REPEAT.** Each time you press REPEAT, the repeat mode changes as follows. |

**DVD**

| Chapter Repeat | Repeats the same chapter. |
|---|---|
| Title Repeat | Repeats the same title. |
| Repeat Off | Resumes normal playback. |

**VCD  CD**

| Track Repeat | Repeats the same track. |
|---|---|
| All Repeat | Repeats the entire disc. |
| Repeat Off | Resumes normal playback. |

### ■ To resume normal playback

CLEAR — **Press CLEAR.**

**Note**
Some discs may not permit repeat operation.

DVD  VCD  CD

## Repeating a Specific Segment

You can play a specific segment repeatedly (A-B repeat).

| **1** | A-B | **Press A-B at the beginning of the segment (point A) you want to play repeatedly.** |
|---|---|---|
| | | A – |
| **2** | A-B | **Press A-B again at the end of the segment (point B).** |
| | | A – B |

The DVD Player automatically returns to point A and starts repeat playback of the selected segment (A-B).

### ■ To resume normal playback

CLEAR — **Press CLEAR.**

**Notes**
- Some discs may not permit A-B repeat operation.
- You can play a specific segment only within the current title or track.
- You cannot set the A-B repeat function for segments that include multiple camera angles.
- There may be a slight difference between point A and the location where playback actually resumes depending on the disc.

19

```

VCD  CD

**Press the number button(s) to select the track number, then press ENTER to confirm.**
Repeat this step to select the next track.

ENTER

**3** PLAY

**While the MEMORY display is displayed, press ▶.**
The DVD Player starts memory playback.

### ■ To change or cancel the entered program

While the MEMORY display is displayed, press ▲/▼ to highlight the item. To select another title/chapter or track follow step **2**. To cancel, press CLEAR.

### ■ To resume normal playback

Press CLEAR.

### ■ To program during playback

If you press MEMORY during playback, the display to accept your programming appears. To display the MEMORY display, press DISPLAY, then follow steps **2** and **3**.

**Notes**
- You can also use ⊕10 (plus ten button) to add ten to the number.
- Some discs may not permit memory playback operation.
- If you press REPEAT during memory playback, the DVD Player repeats the current memory playback.
- Although you can select title, chapter, and track numbers not included on the disc, those numbers are ignored.
- If you press MEMORY or RETURN while the MEMORY display is displayed, the MEMORY display disappears.
- The programmed selections will be cleared when you turn off the DVD Player.

# Playing in Random Order
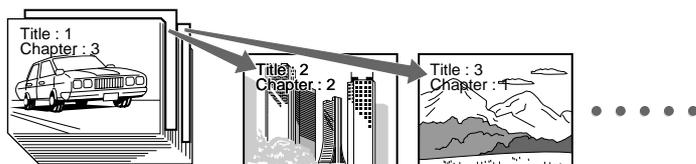

**You can play titles, chapters within a title, or tracks in random order (Random playback).**
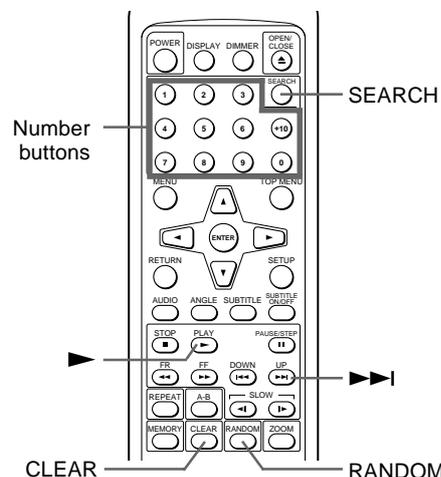

*DVD*  *VCD*  *CD*

## Playing Titles or Tracks in Random Order

The DVD Player automatically selects the titles in a DVD video, or tracks in a VIDEO CD/audio CD, and plays them randomly.

**1** RANDOM

*DVD*

**Press RANDOM twice while the disc is stopped.**
Then, press RANDOM repeatedly to change the random play mode as follows:

Chapter Random → Title Random
↖          ↙
Random off

| Title Random |
| --- |

*VCD*  *CD*

**Press RANDOM once while the disc is stopped.**
Then, press RANDOM repeatedly to alternate the mode as follows:

Track Random ↔ Random off

| Track Random |
| --- |
| Track : 1 |

If you press RANDOM during playback, the DVD Player automatically starts random playback after finishing the current title or track.

**2** PLAY

**Within 5 seconds, press ►.**
The DVD Player starts random playback.

### ■ To resume normal playback

CLEAR

**Press CLEAR.**

**Notes**
• Some discs may not permit random playback operation.
• You cannot use the random playback function together with the memory playback function.
• If you press ►►I during random playback, the DVD Player goes to another title or track and continues random playback.

*DVD*

## Playing Chapters in Random Order

The DVD Player automatically selects the chapters in a title and plays them randomly.

**1** SEARCH

**Press SEARCH, then press the appropriate number button(s) for the title which contains the chapters you want to play in random order.**

↓

e.g. To play the chapters in title 2 in random order

SEARCH ○ → 2

| Title : 2 |
| --- |
| Chapter: 1 |

**2** RANDOM

**Press RANDOM while the disc is stopped.**

| Chapter Random |
| --- |
| Title : 2 |
| Chapter: 1 |

If you press RANDOM during playback, the DVD Player automatically starts random playback after finishing the current chapter.

**3** PLAY

**Within 5 seconds, press ►.**
The DVD Player starts random playback.

### ■ To resume normal playback

CLEAR

**Press CLEAR.**

**Notes**
• You can also use +10 (plus ten button) to add ten to the number.
• Some discs may not permit random playback operation.
• You cannot use the random playback function together with the memory playback function.
• If you press ►►I during random playback, the DVD Player goes to another chapter and continues random playback.

21

# Zooming a Picture

**You can magnify areas within a picture.**
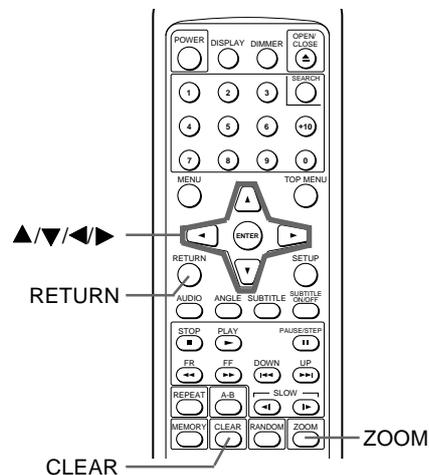

DVD

## Zooming a Picture and Shifting the Zoom Point

You can zoom in on a picture. You can also shift the zoom point.

ZOOM

**Press ZOOM during normal, slow, or still playback.**

If you press ZOOM repeatedly, the magnification level increases.

| Zoom 1 |
| --- |

↓

| Zoom 2 |
| --- |

↓

| Zoom 3 |
| --- |

RETURN

**To reduce the magnification level**
Press RETURN.

**To shift the zoom point**
Press ▲/▼/◀/▶.
When the zoom point reaches an edge of the picture, the color of "Zoom" changes.

CLEAR

**To restore the original zoom point (center of the picture)**
Press CLEAR.

### ■ To resume normal playback

ZOOM

**Press ZOOM repeatedly until "Zoom" disappears.**

**Notes**
- Some discs may not permit zoom operation.
- During some scenes, the buttons may not work as described above.
- Zooming does not work on subtitles or menu screens included on DVD videos.
- During zoom playback, ▲/▼/◀/▶ does not work on menu screens included on DVD videos. If you want to view the menus, cancel zoom playback.
- The magnification level varies depending on the picture size you select. (See pages 28 and 31.)

# Selecting the Camera Angle

Angle : 1 ➡ Angle : 2 ➡ Angle : 3 • • • • • •
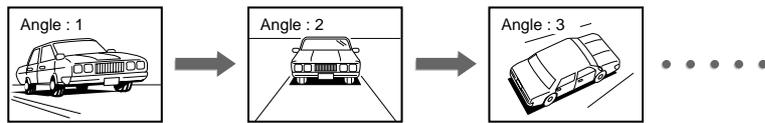

**You can select a preferred camera angle to watch a scene.**
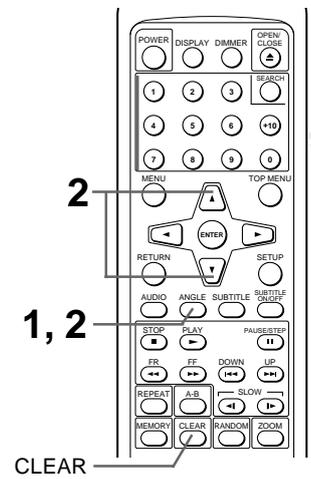

DVD

## Changing the Camera Angle

If the scene was recorded from multiple angles, you can easily change the camera angle of the scene you are watching.

**1** ANGLE

**Press ANGLE while playing a scene recorded with multiple angles.**

While playing a scene recorded with multiple angles, the angle icon (📹) appears in the DVD display and on the TV screen.
Press ANGLE while the angle icon is displayed.

Angle: **1** 📹 — Angle icon

Current angle number

**2** ANGLE

**Press ANGLE or ▲ while the angle number is displayed on the TV screen.**

Each time you press ANGLE or ▲, the camera angle changes.

Angle: **1**

CLEAR
## Turning subtitles on/off

SUBTITLE ON/OFF

**Press SUBTITLE ON/OFF during playback.**
Each press of the button turns subtitles on or off.
(The current subtitle setting is displayed for about 3 seconds.)

Displayed for about 3 seconds

Subtitle : 1 ENG On

Subtitles —— Good evening!

↑ ↓

Subtitle : 1 ENG Off
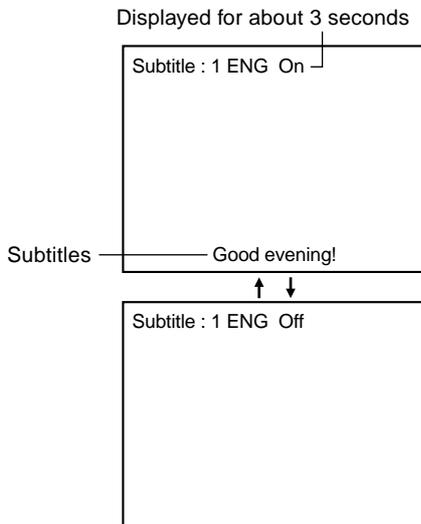

**Notes**
• Some DVD videos are set to display subtitles automatically, and you cannot turn them off even if you set the subtitle function to off.
• During some scenes, the subtitles may not appear immediately after you select "On."
• Some DVD videos will allow you to make subtitle selections and turn subtitles on or off only by using the disc menu.

## Selecting a Subtitle Language

You can select a subtitle language from those included on the DVD video.

**1** SUBTITLE

**Press SUBTITLE during playback.**
The current subtitle setting is displayed for about 3 seconds.

Subtitle: 1 ENG On

Language

The abbreviation of the language appears instead of the language name. See the list of languages and their abbreviations on page 36.

**2** SUBTITLE

**Press SUBTITLE or ▲ while the subtitle setting is displayed on the TV screen.**

Each time you press SUBTITLE or ▲, the subtitle language changes to the next language included on the DVD video.

e.g.

Subtitle : 1 ENG On
↓
Subtitle : 2 FRE On
↓
Subtitle : 3 SPA On
↓
⋮

▼ : Cycles backwards

### ■ To turn off the subtitle setting display

CLEAR

**Press CLEAR.**

**Notes**
• When you turn on the DVD Player or replace a disc, the DVD Player returns to the automatic setting in the setting menu (see pages 28 and 30).
When you select a subtitle language which is not included on the disc, the DVD Player plays the prior language programmed on the disc.
• During some scenes, the subtitles may not appear immediately after you change the subtitle language by pressing ▲/▼.

# Selecting the Audio Language and Sound System as a set

Good morning! → Bon jour! → ¡Buenos días! • • • • • •
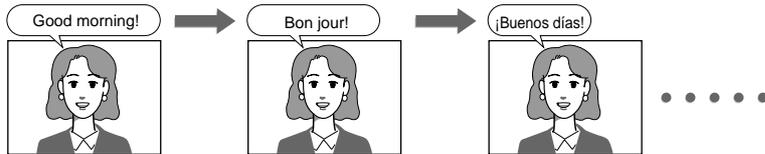

**You can select a preferred audio language and sound system.**
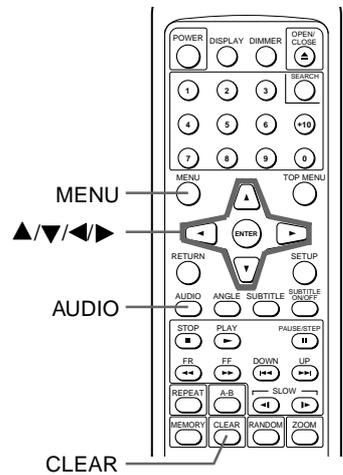

## DVD
## Selecting a Playback Audio Setting

You can select the preferred audio language and sound system as a set from those included on the DVD video. This function lets you temporarily change the audio language which you selected as the automatic setting in the setting menu (see pages 28 and 30), and choose the sound system if the DVD video is recorded in more than one sound format.

**1** AUDIO

**Press AUDIO during playback.**
The current audio setting is displayed for about 3 seconds.

— Audio language
— Sound system
— Audio channel

Audio: 1 ENG PCM 2CH
Audio OUT Select : Bitstream — See "Notes" in Step **2**.

The abbreviation of the language appears. Refer to the list of languages on page 36.

**2** AUDIO

**Press AUDIO or ▲ while the audio setting is displayed on the TV screen.**
Each time you press AUDIO or ▲, the language and audio recording system set changes.

e.g.

Audio: 1 ENG ⏹⏹ 5.1CH
↓
Audio: 2 ENG PCM 2CH
↓
Audio: 3 FRE ⏹⏹ 5.1CH
↓

▼ : Cycles backwards

**Notes**
- Dolby Digital 5.1 Channel sound may be displayed as "⏹⏹ 6CH."
- You can change the "Audio Out Select" setting temporarily by pressing ◀/▶. Before changing the setting, read through the explanation on "Audio Out Select" on page 32 and carefully select the setting.

**Notes**
- Some discs allow you to change audio selections only by using the disc menu. If this is the case, press MENU and choose the appropriate language from the selections in the disc menu.
- Some discs may have only one audio language and sound recording system set and you cannot change this selection.
- When you turn on the DVD Player or replace a disc, the DVD Player returns to the automatic setting in the setting menu (see page 28).

### ■ To turn off the audio setting display

CLEAR

**Press CLEAR.**

## VCD
## Selecting Sound Channels on VIDEO CDs

A VIDEO CD may have left and right sound channels which contain sounds or languages on each channel. You can switch these two channels to hear a preferred sound or language.

AUDIO

**During playback, press AUDIO (repeatedly) to select the sound channel.**

L. R — Both the left and right channels are heard.
↓
L — The left channel is heard.
↓
R — The right channel is heard.

# Using Information on the On-Screen Display and the DVD Player's Display

**You can view information about a disc and its operational status on the TV screen and the DVD Player's display.**

**Note**
Some DVD videos may not display the chapter number or elapsed time.

Display

## Checking the Total Number of the Titles/Tracks, Current Title/Chapter/Track, Remaining and Elapsed Time, etc.

**When the disc is inserted in the DVD Player**
The following information appears in the DVD Player's display for about five seconds.

**DVD video***
e.g.

TITLE
4
DVD

Total number of titles

* Playback may automatically start depending on the DVD video. In this case, the information on the left doesn't appear.

**VIDEO CD/Audio CD**
e.g.

CD  TR  13  TOTAL  0:46:30

Total number of tracks    Total playing time of the disc

---

DISPLAY

**Press DISPLAY while the disc is stopped.**

Each time you press DISPLAY, the on-screen display on the TV screen changes as follows.

**DVD video**
e.g.

# Customizing the Function Settings

When you insert a DVD Video, VIDEO CD, or audio CD, the various functions of the DVD Player will be set (reset) according to the setting menu.
You can customize this setting menu according to your preference.

**Before operating**
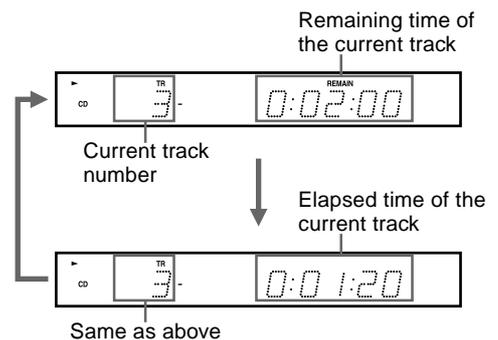

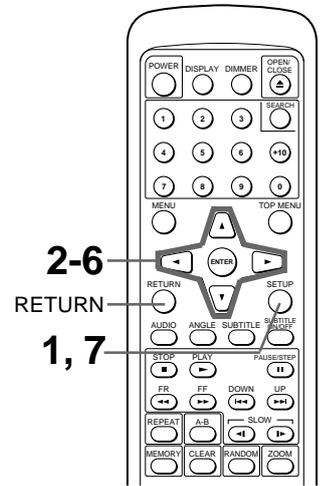

SETUP can function even during normal playback. However, if an operation is inaccessible, a message will appear. In this case, try again after playback is stopped.
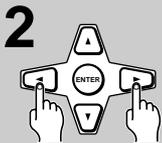

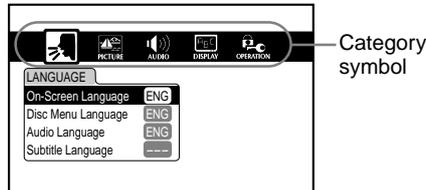

DVD  VCD  CD

## Setting Steps

**1** **Press SETUP.**

The following setting menu appears.

Category symbol

LANGUAGE
On-Screen Language  ENG
Disc Menu Language  ENG
Audio Language  ENG
Subtitle Language  ---

**2** **Press ◄/► to select a category symbol for the setting you want to change.**

**Setting languages**

**Setting playback picture conditions**

**Setting sound output**

**Setting displays**

**Setting operational options**

**3** **Press ▲/▼ to select the item you want to change, then press ENTER.**

e.g. When you select "PICTURE" as the category in step **2**, then select "TV Shape" as the item in this step.

PICTURE
TV Shape  4:3LB  4:3 LetterBox
Black Level  NRML  4:3 Normal
PAL/Auto *  Auto  16:9Widescreen
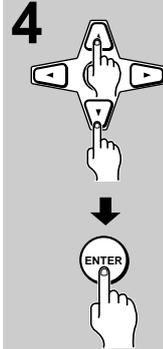

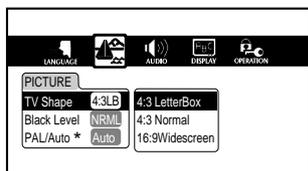

**4** **Press ▲/▼ to change the setting, the press ENTER.**

e.g. When you change the "TV Shape" setting to "16:9Widescreen."

PICTURE
TV Shape  4:3LB  4:3 LetterBox
Black Level  NRML  4:3 Normal
PAL/Auto *  Auto  16:9Widescreen
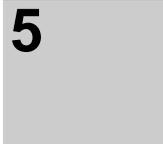

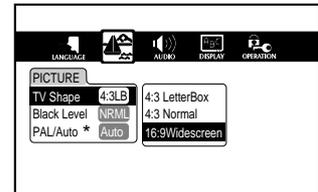

**5** **Further steps may be needed depending on the item or setting. Follow the steps described in the explanation of each item starting from page 30.**
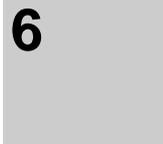

**6** • **To change the setting of other items in the same category, repeat steps 3 to 5.**

• **To change the setting of an item in a different category, repeat steps 2 to 5.**

**7** **To close the setting menu, press SETUP.**

■ **To return to the previously displayed menu**

**Press RETURN.**

**When operating with the DVD Player**

# Customizing the Function Settings

## Explanation of Each Item in the Language Category
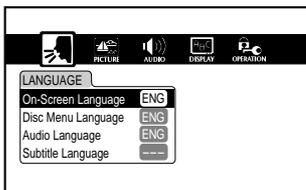

**Note**
To know the factory setting for each item, see the on-screen illustration on the left.

### On-Screen Language  DVD  VCD  CD

Select an on-screen language from the following:

| (Asian models) | (Other models) |
|---|---|
| • **English** | • **English** |
| • **Chinese** | • **French** |
| • **Malaysian** | • **Spanish** |

### Disc Menu Language  DVD

Select a disc menu language from the following:

| (Asian models) | (Other models) |
|---|---|
| • **English** | • **English** |
| • **Chinese** | • **French** |
| • **Malaysian** | • **Spanish** |

**(All models)**
• **Others** → Continue to "Choosing Another Language" in the right column of this page.

**Note**
Some DVD videos may not include your pre-selected language. In this case, the DVD Player automatically displays disc menus consistent with the disc's initial language setting.

### Audio Language  DVD

Select an audio language from the following:

| (Asian models) | (Other models) |
|---|---|
| • **English** | • **English** |
| • **Chinese** | • **French** |
| • **Malaysian** | • **Spanish** |

**(All models)**
• **Others** → Continue to "Choosing Another Language" in the right column of this page.

**Note**
Some DVD videos may be played in a different language than you selected because an initial language may be programmed on the disc.

### Subtitle Language  DVD

Select a subtitle language or no subtitle setting from the following:

| (Asian models) | (Other models) |
|---|---|
| • **English** | • **English** |
| • **Chinese** | • **French** |
| • **Malaysian** | • **Spanish** |

**(All models)**
• **No Subtitles**: Select this when you disable subtitles.
• **Others** → Continue to "Choosing Another Language" below.

**Notes**
• Some DVD videos may be set to display subtitles in a different language than you selected.
• Some DVD videos allow you to change subtitle selections only by using the disc menu. If this is the case, press MENU and choose the appropriate subtitle language from the selection on the disc menu.

### ■ Choosing Another Language

After pressing ENTER in step **4** of "Setting Steps" on page 28:

**1** Obtain the abbreviation of the preferred language from the Table of Languages on page 36.

**2** Select the first character of the abbreviation by pressing ▲/▼.
e.g. (USA and Canadian models) When you select "Others" in "Disc Menu Language."

**3** Press ◄/► to move the cursor to the next column, then select the second character of the abbreviation by pressing ▲/▼.

**4** Press ENTER.
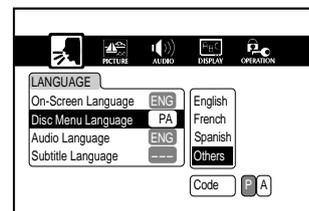

## Explanation of Each Item in the Picture Category

**PICTURE**

| LANGUAGE | | AUDIO | DISPLAY | OPERATION |
|---|---|---|---|---|

PICTURE
TV Shape    4:3LB
Black Level  NRML
PAL/Auto  *  Auto
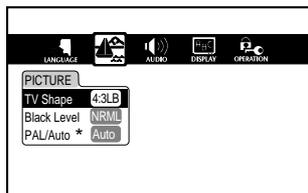

**Note**
To know the factory setting for each item, see the on-screen illustration on the left.

### TV Shape                                               DVD

• **4:3 Letterbox:** Select when a 4:3 TV is connected.

Displays widescreen images with masking bars above and below the picture.

• **4:3 Normal:** Select when a 4:3 TV is connected.

Displays pictures cropped to fill your TV screen. Either or both sides of the picture are cut off.

• **16:9 Widescreen:** Select when a 16:9 wide TV is connected.

**Notes**
• The displayable picture size is preset on each DVD video. Therefore, the playback picture of some DVD videos may not conform to the picture size you select.
• When you play a DVD video recorded in the 4:3 picture size only, the playback picture always appears in the 4:3 picture size regardless of the TV shape setting.
• If you select "16:9Widescreen" and you own a 4:3 TV set, the DVD playback picture will be horizontally distorted during playback. Images will appear to be horizontally compressed. Make sure the TV Shape conforms to the actual TV in use.

### Black Level                                        DVD   VCD

Set according to your preference and the TV's capability.

**(USA, Canadian, and Asian models)**
• **Enhanced:** Expanded black level
• **Normal:** Standard black level

**(Other models)**
• **Normal:** Standard black level
• **Light:** Brighter than in "Normal"

### PAL/Auto*                                          DVD   VCD

• **PAL:** Select to play PAL discs.
  Connect a PAL TV to view pictures.

• **Auto:** The DVD Player automatically detects PAL and NTSC video systems of discs. Connecting a multisystem TV (PAL/NTSC compatible) is needed to view pictures.
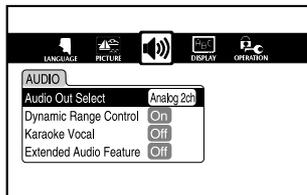

**Note**
A playback picture may be distorted temporarily when the detected signal changes between PAL and NTSC on the disc.

* Not applicable for USA and Canadian models

# Customizing the Function Settings

## Explanation of Each Item in the Audio Category

AUDIO

LANGUAGE   PICTURE   AUDIO   DISPLAY   OPERATION

AUDIO
Audio Out Select          Analog 2ch
Dynamic Range Control     On
Karaoke Vocal             Off
Extended Audio Feature    Off

### Audio Out Select          DVD   VCD   CD

The output sound format can be changed by changing the setting of "Audio Out Select" — the sound signal conversion method.

This setting is related to the equipment connected to the DVD Player's DIGITAL OUTPUT connectors/ANALOG OUTPUT jacks (see pages 8 and 9). For details, see "Output Sound Conversion Table" below.

- **Bitstream:** Select when you make the digital connection with an amplifier with a Dolby Digital/DTS/MPEG1/MPEG2*/Dolby Pro Logic decoder.

  **Warning**
  **DO NOT** set "Audio Out Select" to "Bitstream" if the amplifier does not have one of the decoders described above. If you do so, high volume sound may be output and damage your hearing as well as the speakers.

- **Analog 2ch:** Select when you make only the analog connection.
  This setting must be made to reproduce Dolby Pro Logic surround sound with the analog connection.

- **PCM:** Select when you make the digital connection with the 2 channel digital stereo.

  The Dolby Digital, MPEG1, and MPEG2* sound signals are converted into PCM 2ch format and output from the DIGITAL OUTPUT connectors.

### ■ Output Sound Conversion Table

| Discs | Sound systems | DIGITAL OUT — Digital output signals from the DIGITAL OUTPUT COAXIAL/OPTICAL connectors | | | ANALOG OUT — kHz/bit when converting Digital Signals to Analog Signals for Analog jacks | | |
|---|---|---|---|---|---|---|---|
| | | "Audio Out Select" setting | | | "Audio Out Select" setting | | |
| | | Bitstream | Analog 2ch | PCM | Bitstream | Analog 2ch | PCM |
| DVD videos | DOLBY DIGITAL | Bitstream | | 48 kHz/16 bit | 48 kHz/20 bit | 48 kHz/20 bit | 48 kHz/20 bit |
| | Linear PCM 48 kHz/16 bit | Same kHz/bit as the source | | | 48 kHz/16 bit | 48 kHz/16 bit | 48 kHz/16 bit |
| | Linear PCM 48 kHz/20 bit | 48 kHz/16 bit | 48 kHz/16 bit | 48 kHz/16 bit | 48 kHz/20 bit | 48 kHz/20 bit | 48 kHz/20 bit |
| | Linear PCM 48 kHz/24 bit | | | | | 48 kHz/24 bit | |
| | Linear PCM 96 kHz/16 bit | | No signal is output. | | 48 kHz/16 bit | 96 kHz/16 bit | 48 kHz/16 bit |
| | Linear PCM 96 kHz/20bit | | | | 48 kHz/20 bit | 96 kHz/20 bit | 48 kHz/20 bit |
| | Linear PCM 96 kHz/24 bit | | | | | 96 kHz/24 bit | |
| | DTS | Bitstream | | No signal | (No signal is output.) | | |
| | MPEG2* | Bitstream (7.1ch) | Bitstream (2ch) | 48 kHz/16 bit | (No signal is output.) | 48 kHz/16 bit | |
| VIDEO CDs | MPEG1 | 44.1 kHz/16 bit | | | 44.1 kHz/16 bit | | |
| Audio CDs | Linear PCM 44.1 kHz/16 bit | Same kHz/bit as the source | | | 44.1 kHz/16 bit | | |
| | DTS | Bitstream | | | (Noise is output.) | | |

* Not applicable for USA and Canadian models

**Note**
To know the factory setting for each item, see the above on-screen illustration.

## Dynamic Range Control `DVD`

- **Off:** Full dynamic range is maintained.
- **On:** Dynamic range is reduced.

**Notes**
- This function works only with playback of Dolby Digital recorded discs.
- The level of Dynamic Range Reduction may differ depending on the DVD video.

## Karaoke Vocal `DVD`

The vocal output feature is used during playback of Dolby Digital (multichannel) recorded DVD KARAOKE discs. This feature allows you to turn off vocal audio tracks, or restore them for background accompaniment.

- **Off:** The primary vocal is not output.
- **On:** The primary vocal is output if it is recorded on the disc.

**Note**
The amplifier with a Dolby Digital decoder must be connected to the DVD Player.

## Extended Audio Feature `DVD`

Some DVD videos contain a narration track for visually impaired persons. The DVD player automatically plays the narration track by setting this item to "On."

- **Off:** The narration track is not played.
- **On:** The narration track is played automatically.

## On-Screen displays `DVD` `VCD` `CD`

- **Off:** Operational modes are not displayed on the TV screen.

- **On:** Operational modes are displayed on the TV screen (e.g. "PLAY", 📹).

## OSD Background Color `DVD` `VCD` `CD`

- **Blue:** Blue background.
- **Gray:** Gray background.

## Extended Subtitle Features `DVD`

Some DVD videos contain special subtitles, an enhancement of closed captions for hearing impaired persons. The DVD Player automatically displays these special subtitles by setting this item to "On."
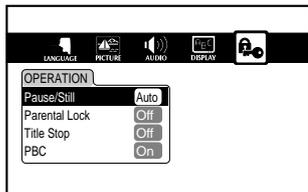

- **Off:** The extended subtitles are not displayed.

- **On:** The extended subtitles are displayed automatically.

## Screen Saver `DVD`

- **Off:** The screen saver is disabled.
- **On:** The screen saver is enabled.

33

# Customizing the Function Settings

## Explanation of Each Item in the Operation Category

**Note**
To know the factory setting for each item, see the on-screen illustration on the left.

### Pause/Still                          DVD

- **Auto:**      Select for normal use.
                 The image can be paused without shaking.

- **Frame:**     The resolution of the still pictures is improved so that you can make a motionless picture clearer when you pause it.

### Parental Lock                        DVD

DVD videos equipped with the parental lock function are rated according to their content. The content allowed by a parental lock level and the way a DVD video can be controlled may vary from disc to disc. For example, some discs allow you to edit out violent scenes unsuitable for children and replace them with more suitable scenes, or lock out playback of the disc altogether.

**Off:**    Select to disable the parental lock feature. Then, carry out "Further Steps" in the right column of this page.

**On:**     Select to activate the parental lock feature or change the settings. Then, carry out "Further Steps" in the right column of this page.

**Note**
DVD videos may or may not respond to the parental lock settings. This is not a defect in the DVD Player. Make sure this function works with your DVD videos.

### Further Steps

After pressing ENTER in step **4** of "Setting Steps" on page 28,

**1** Press the number buttons to create a personal 4-digit security code, then press ENTER.

(To reenter the security code, before pressing ENTER, press CLEAR then enter the security code.)

- **When you select "Parental Lock On"** Continue to the next step.

- **When you select "Parental Lock Off"** The parental lock is disabled.

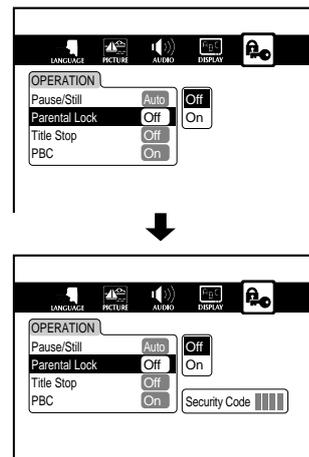

**2** Press ◀/▶ to select the country whose standards were used to rate the DVD video.

e.g. USA and Canadian models

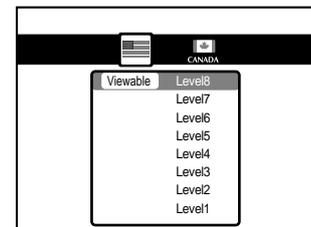

**3** Press ▲/▼ to select the parental lock level, then press ENTER.

e.g. USA and Canadian models

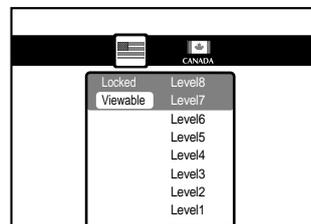

The parental lock is activated.
You cannot play DVD videos rated higher than the level you select unless you cancel the parental lock function. For example, when you select level 7, discs rated higher than level 7 are locked out and cannot be played.

### ■ To change the parental lock level

Follow the above procedure.

### ■ To change your 4-digit security code

After selecting "On" or "Off" and pressing ENTER in step **4** of "Setting Steps" on page 28:

**1** Press STOP four times, then press ENTER.

STOP → STOP → STOP → STOP → ENTER

The 4-digit security code is cleared.

**2** Press the number buttons to create a new 4-digit security code.

**3** Press ENTER.

## Title Stop                                                DVD

- **Off:** The DVD Player continues playback after playback of a title is complete.

- **On:** The DVD Player stops playback after playback of a title is complete.

## PBC                                                      VCD

PBC is the abbreviation for Playback Control (see "About VIDEO CDs" on page 11.)

- **Off:** Select to play a PBC-featured VIDEO CD without using the menu screen.

- **On:** Select to view the menu screen when playing a PBC-featured VIDEO CD.

# Troubleshooting

**Check the following guide for the possible cause of a problem before contacting service. Refer also to the respective instruction manuals of the connected components and TV.**

| | Symptoms | Causes | Remedies | Pages |
|---|---|---|---|---|
| DVD Player | The DVD Player doesn't switch on. | • The power cord is disconnected. | • Check the connection of the power cord. | 10 |
| | | • The main power is set to OFF. | • Turn on the main power. | 10 |
| | | • There is external noise in the computer circuits of the DVD Player. | • Switch off the main power, then switch it on again. If not recovered, disconnect the power cord, then connect it again. | 10 |
| | | • The AC fuse is blown. | • Contact your nearest ONKYO service center. | – |
| | The DVD Player does not start playback. | • No disc is inserted. | • Insert a disc. (Check that "DVD," "VCD," or "CD" is lit in the DVD Player's display.) | 12 |
| | | • The region number of the disc does not match that of the DVD Player. | • See "1. Regional Restriction Codes (Region Number)" on page 4. | 4 |
| | | • An unplayable disc is inserted. | • Check the playable discs. | 11 |
| | | • The disc is placed upside down. | • Place the disc with the playback side down. | 12 |
| | | • The disc is not placed within the disc tray guide. | • Place the disc within the proper guide on the disc tray. | 12 |
| | | • The disc is dirty. | • Eject the disc and clean it. | 11 |
| | | • The parental lock function is activated. | • Deactivate the parental lock function or change the parental lock level. | 34 |
| | Brightness is unstable or noise is visible on the playback picture. | • Copy protection is activated. | • Connect the DVD Player directly to the TV. Avoid connecting the DVD Player to the TV through a VCR. | 8 |
| | The playback picture is occasionally distorted. | • The disc is dirty. | • Eject the disc and clean it. | 11 |
| | | • It is in fast forward or fast reverse playback. | • Sometimes a small amount of picture distortion may appear. This is not a malfunction. | 14 |
| | Playback doesn't follow the course of the disc's programs. | • The DVD Player is in repeat playback mode, memory playback mode, or random playback mode, etc. | • Resume normal playback. | 19-21 |
| | The picture from the DVD Player doesn't appear on the TV screen. | • The TV is not set to receive the output signals from the DVD Player. | • Set the TV to the DVD Player's input. | 12 |
| | | • The DVD Player is not properly connected. | • Check the connections to the DVD Player. | 8 |
| | No sound is reproduced. | • A wrong sound signal conversion method (Audio Out Select) is selected. | • Check the current sound signal conversion method, and select the right setting for "Audio Out Select." | 32 |
| | | • The TV is not set to receive the output signals from the DVD Player. | • Set the TV to the DVD Player's input. | 12 |
| | | • The DVD Player is not properly connected. | • Check the connections to the DVD Player. | 8, 9 |
| | The buttons on the remote controller and DVD Player do not operate. | • Power supply fluctuations or other abnormalities such as static electricity may interrupt correct operation. | • Switch off the main power, then switch it on again. If not recovered, disconnect the power cord, then connect it again. | 10 |
| Remote Controller | The buttons on the DVD Player operate but the buttons on the remote controller do not operate. | • No batteries are inserted in the remote controller. | • Insert new batteries. | 7 |
| | | • The batteries are worn out. | • Replace with new batteries. | 7 |
| | | • The remote controller is not pointed at the remote sensor of the DVD Player. | • Point the remote controller at the remote sensor of the DVD Player. | 7 |
| | | • The remote controller is too far from the DVD Player. | • Operate the remote controller within 5 m (16 feet). | 7 |

Because the unit contains a microcomputer to provide advanced functions, it may malfunction due to external noise or static electricity. If this happens, press the POWER switch on the unit and then press it again after about five seconds.

# Specifications

## ■ DVD Player

| | |
|---|---|
| Power supply | USA and Canadian models: AC 120 V, 60 Hz |
| | Other models: AC 100–240 V, 50/60 Hz |
| Power consumption | USA and Canadian models: 21 W |
| | Other models: 19 W |
| Weight | 3.8 kg, 8.4 lbs. |
| External dimensions | $435 \times 91 \times 300$ mm (W/H/D), 17 $1/8$" $\times$ 3 $9/16$" $\times$ 11 $13/16$" (W/H/D) |
| Signal system | USA and Canadian models: Standard NTSC |
| | Other models: PAL/3.58 NTSC |
| Regional restriction code | USA and Canadian area :     1 |
| | Australasian area :     4 |
| | South-east Asian area :     3 |
| | PRC :     6 |
| Laser | Semiconductor laser, wavelength 650 nm |
| Frequency range (digital audio) | DVD linear sound:     48 kHz sampling 4 Hz to 22 kHz  96 kHz sampling 4 Hz to 44 kHz   Audio CD:     4 Hz to 20 kHz |
| Signal-to-noise ratio (digital audio) | More than 100 dB |
| Audio dynamic range (digital audio) | More than 96 dB |
| Harmonic distortion (digital audio) | Less than 0.01 % |
| Wow and flutter | Below measurable level (less than ±0.001 % (W.PEAK)) |
| Operating conditions | Temperature: 5°C to 35°C (41°F to 95°F), Operation status: Horizontal |

## ■ Outputs

| | |
|---|---|
| Component video output | (Y) 1.0 V (p-p), 75 $\Omega$, pin jack $\times$ 1  ($P_B$)/($P_R$) 0.7 V (p-p), 75 $\Omega$, pin jack $\times$ 1 |
| Video output | 1.0 V (p-p), 75 $\Omega$, negative sync., pin jack $\times$ 1 |
| S video output | (Y) 1.0 V (p-p), 75 $\Omega$, negative sync., Mini DIN 4-pin $\times$ 1  (C) 0.286 V (p-p), 75 $\Omega$ |
| Audio output (OPTICAL) | −22.5 dBm $\times$ 1 |
| Audio output (COAXIAL) | 0.5 V (p-p), 75 $\Omega$, pin jack $\times$ 1 |
| Audio output (ANALOG DIRECT) | 2.0 V (rms), 470 $\Omega$, pin jack (L, R) $\times$ 1 |
| Audio output (ACOUSTIC CONTROL) | 2.0 V (rms), 470 $\Omega$, pin jack (L, R) $\times$ 1 |
| Audio output (MONO DIRECT) | 2.0 V (rms), 470 $\Omega$, pin jack $\times$ 1 |
